

Invitation: DIH-HERO Brokerage Event

We kindly invite you to join the DIH-HERO Brokerage Event on October 30 & 31st, 2019.

The Brokerage Event is the place to find your match and apply for one of the two upcoming Open Calls in the Digital Innovation Hubs in Healthcare Robotics (DIH-HERO) platform. Are you an SME or slightly larger robotics company and (want to be) active in the healthcare domain? Or are you an end user of robotics in healthcare and interested in accelerating innovation? Visit this event, find your match, and increase your chance of successful submission to this cross-border collaboration fund.

SMEs and slightly larger companies located in Europe can apply for funding in open calls from summer 2019 until spring 2021. Funding will be available for cross-border travelling (€2k), the development of demonstrators (€100k) and technology transfer experiments (€200k). DIH-HERO offers this Brokerage program to stimulate the cross-border matchmaking between companies and with end users.

The program includes:

- Information on DIH-HERO's open calls & deadlines
- Opportunities for a pre-scan of your proposal ideas
- Keynotes from experts in the main healthcare robotics domains, a serial entrepreneur's experience, the views of a Venture Capitalist's, upcoming European funding rounds, rules & legislation in Europe, and more ...
- Exhibition of the Digital Innovation Hubs
- Many opportunities for (pre-arranged) face-to-face meetings

Free registration via the event website: www.utwente.nl/BROKERAGE

Do you want to participate to the Brokerage Event, but travel expenses are too high? SME's who travel cross-border to Enschede (The Netherlands) can apply for the Travel Voucher Call to cover the travel expenses (max. of € 2.000,- per voucher). <https://dih-hero.eu/calls/travel-voucher/>

We look forward to welcoming you to the TechMed Centre at the University of Twente!

On behalf of the DIH-HERO consortium,

Prof. dr. ir. Stefano Stramigioli
